

Project Title: FALL WALLEYE INDEX NETTING (FWIN)

Budget Year: 2013

Description: Net different areas of the French River to collect data on sport fish. All species netted will be processed in the MNR laboratory. The results of the field work and laboratory processing will be included in a Report to be prepared by the MNR and finalised during 2014.
The final results of this study should identify a procedure which should lead to the improvement of sports fishing in the French River.

Project Manager: Ron Ireland

Estimated Start Date: October 2013

Estimated Completion Date: May 2014

Actual Start Date:

Actual Completion Date:

Estimated Cost:	Labour:	\$		} By MNR
	Supervision:	30,000		} By MNR
	Equipment:	3,400		By French River Stewardship Council
	Incidentals:	3,600		By FRSC and Hartley Bay Marina

Estimated Total Cost:

Total Actual Cost: \$ 37,000

Funding Required ? (Yes / No) Yes

Source of Funds: MNR and FRSC

Application for Funding Prepared By: Jim Rook

Date Application Remitted:

Date Funds Approved:

Date Funds Received:

Donations in Kind: Hartley Bay Marina (Boats, motors and fuel)

FRSC (Funding Application, boat, motor, fuel, manpower)

Notes: \$30,000 donation provided by the MNR covers the cost of field and laboratory work and the cost of preparing the Final Report

Project Approved By: Jim Rook
